The Most Versatile and Durable Cooker Known to Man

- Stainless steel oval burner adjusts from 26,500 Btu LP/25,000 Btu Nat. to 7,500 Btu (cooks more than 50 hours on one tank on low).
- Deep cast aluminum grill head maintains consistent temperature.
- Two-piece stainless steel cooking grids (2-level) maximize space.
- Stainless steel drip pan with drain valve.
- Built-in smoker tray for wood chips or pellets.
- Electric igniter lights all season on one AA battery.
- Made in USA.

Slow Cooking - The stainless steel drip pan serves as a barrier between your food and the fire below. Dual-Control gas burner swirls up around the sides of the pan, creating a convection effect that helps cook foods uniformly.

Steaming - Close the drain valve, fill the drip pan with water and set the burner on HIGH to steam vegetables, crab legs, and other

Smoking - A slide-out tray lets you monitor or add your favorite wood chips to pellets without opening the cooker's lid.

Grilling - Grave grill can still deliver the heat for making burgers, steaks, chicken breasts and more.

Standard Features:

- Durable 304, #4 brushed stainless steel construction.
- 304 tubular stainless steel burners covered by a lifetime warranty.
- 304 stainless steel cooking grids, which ensure ease of cleaning.
- Stainless steel flavor plates provide even heat while reducing flare-ups.
- A crossover ignition system which ensures reliable lighting every time.
- Drain with valve which allows safe and easy cleaning.
- 10" semi-pneumatic wheels and locking casters for easy set-up anywhere.
- Natural gas models are complete with hose and quick disconnect.
- Propane models are complete with hose and regulator.
- Pre-assembled and test fired at the factory.
- Heavy duty removable roll cover with thermometer and cool handle.
- The industry's best BTU output per square inch of cook surface.

Portable Hot Plates

The **SUPERB-16** is a single burner unit with a 15,000 Btu output burner. The SUPERB-16 measures 10.5" x 11.5" x 5.75" and weighs approximately 9.5 lbs. Gas connection is 3/8" male flare and operates off any standard 20 lb. propane cylinder. It can also be used with a 1 lb. disposable bottle, requires a low pressure regulator and hose, not included.

The **SUPERB-26** is the double burner version of our economy table top series hotplate and contains two 15,000 Btu output burners. The SUPERB-26 measures 20.5" x 11.5" x 5.75" and weighs approximately 18 lbs. Gas connection is 3/8" male flare and operates off any standard 20 lb. propane bottle, requires a low pressure regulator and hose, not included.

The **SUPERB-36** is the triple burner version of our economy stoves and contains three 15,000 Btu output burners. The SUPERB-36 measures 31" x 11" x 5.75" and weighs approximately 25 lbs. Gas connection is 3/8" male flare and operates off any standard 20 lb. propane cylinder, requires low pressure regulator and hose assembly, not included.

Deluxe Two Burner Stove

Item #**F235714** BaseCamp stoves are made with premium materials and heavy gauge frames with a regulator to attach a 1 lb. propane tank or a remote gas supply.

This 10,000-20,000 Btu liquid propane camping stove is the perfect solution for cooking at your camp. The body and wind guards are constructed with thicker stainless steel and are powder coated to be more durable and create more reliable cooking. It features a thicker gauge, chrome plated trivet to support cast iron pots and pans, plus a chrome plated removable drip tray for easy cleaning. With its variable knobs and included regulator, this stove is easy to use and quick to set up. The included regulator is calibrated for use with disposable 1 lb. cylinders or can be used with a hose when purchased separately. When done, the stove can be folded down into itself and easily transported with the integrated handle.

- Burners with Piezo ignition.
- Classic robust design with chrome plated drip tray for easy cleaning.
- Built-in windshields and strong fold over legs.
- Complete with gas regulator for direct connection to 1lb. cylinder.

Deluxe Three Burner Stove

Item #**F235782** BaseCamp stoves are made with premium materials and heavy gauge frames with a regulator to attach a 1 lb. propane tank or a remote gas supply.

This 5,000-25,000 Btu liquid propane camping stove is the perfect solution for cooking at your camp. This stove's body and wind guards are constructed with thicker stainless steel and are powder coated to be more durable and create more reliable cooking. It features two 10,000 Btu burners and one 5,000 Btu burner under a thicker gauge, chrome plated trivet so you can cook with multiple pots and pans along with a chrome plated removable drip tray for easy cleaning. With its variable knobs and included regulator, this stove is easy to use and quick to set up. The included regulator is calibrated for use with disposable 1 lb. cylinders or can be used with a hose when purchased separately. The stove can be folded down into itself and easily transported with the integrated handle.

Grill and Outdoor Living Products

Portable Hot Plates

High Output Two Burner Stove

Item #: **F235727** this 25,000-50,000 Btu liquid propane camping stove is the perfect solution for cooking or boiling at your camp. The sensitive controls allow you to gently pan fry hamburgers or boil large pots of water in remarkable time. The body and foldable wind guards are constructed with thicker stainless steel and are powder coated to be more durable and create more reliable cooking. It features a thicker gauge, chrome plated trivet and extra-large body to accommodate two cast iron pots or pans, along with chrome plated removable drip tray for easy cleaning. With its variable knobs and included regulator, this stove is easy to use and quick to set up. The included regulator is calibrated for use with disposable 1 lb. cylinders or can be used with a hose when purchased separately. When done, the stove can be folded down into itself and easily transported with the integrated handle.

The **Porta-Chef** comes with its own hard plastic carrying case for even more convenience and the butane canister easy to install.

Dimensions: 15" L x 11.8" W x 4.1" H

Heat Output: 7500 Btu/Hr.

Weight: 4.8 lbs. (2.0 kg)

Fuel: Butane

Ignition: Piezo electronic

Minimum Clearance to Combustibles: 6" from front and side, 36" from ceiling.

Mr. Heater Outdoor Heaters and Accessories

Buddy and Tank Top

MH4BC – Little Buddy Radiant Heater - With 3,800 Btu/hr. of radiant heat, this handy little heater is the right sized solution for packing some heat wherever your outdoor adventures take you.

- CSA certified for indoor use.
- One button ignition/on function.
- Accidental tip over safety shutoff.
- Oxygen depletion sensor.
- Heats up to 200 square feet.
- 5 1/2 hours of continuous heat with 1 lb. disposable cylinder (sold separately).

Specifications: Model Number MH9B

- 4,000-9,000 Btu/hr.
- Operating Position: Vertical.
- Valve Position: Pilot, Low and Hi.
- 1 lb. Cylinder: 3 to 6 Hours.
- 20 lb. Cylinder: 48 to 108 Hours.
- Overall Dimensions: 14" L x 7" W x 14" H.
- Shipping Weight: 7 lbs.

MH18B – Big Buddy Heater – Heats up to 400 square feet for up to 220 Hours! Three heat settings 4,000 / 9,000 / 18,000 Btu/hr.

Special Features:

- Built-in thermal protection probe.
- Low oxygen shutoff pilot safety system for indoor and outdoor use.
- Blower fan power on/off switch.
- Large four position heat level control knob with built-in piezo starter.
- Integrated hot air blower venting system.
- Attached swing open doors with swivel out mount for easy cylinder installation.
- Porcelain coated reflector for extended life.
- Dual ceramic burner tiles with shock absorbing floating insulation.
- High temperature coated safety wire guard.
- Nonskid surface pads for extra stability.
- Key shaped rear mounting holes for wall mounting.
- Built-in tip over shutoff switch.
- CSA certified for indoor and outdoor use.

Specifications: Model Number MH18B

- Gas: Propane.
- Operating Position: Vertical.
- Valve Position: Pilot, Low, Medium and Hi.
- Heating Time: One 1 lb. Cylinder: 1.5 to 6 hours.
- Heating Time: Two 1 lb. Cylinders: 3 to 12 Hours.
- Two 20 lb. Cylinders: 50 to 220 Hours.
- Overall Dimensions: 17" L x 10" W x 17-1/2" H.
- Shipping Weight: 16 lbs.

Item **F242315** Model **MH15C** 10,000 to 15,000 BTU. Directly mounts to a 1 lb. propane cylinder, sold separately. Mr. Heater Original Tank Top Heaters are a great source for economical heat from sporting events to ice fishing and have been the top choice for decades. This heater is constructed with high quality chrome and stainless steel components to bring you reliable heating for warmth or cooking when on the go. With its adjustable high-medium-low regulator and integrated stand for heater or cooker positions, this unit is easy to use with refillable or disposable gas cylinders. Featuring a safety shut off and polished chrome reflector, this unit can also be used with 20 lb. propane tanks (using an optional hose).

F235849

F235896

LEISURE ALUMINUM CHAIR - ITEM F235849

BaseCamp mammoth leisure chairs have unique framework that is lightweight and easy to carry but designed to hold up in the toughest conditions.

This premium camp chair outlasts the competition by using a high grade rust resistant alloy frame and thick double walled connectors on its massive feet. The unique framework design and 600D UV coated poly oxford material provides even load distribution for up to 300 lbs. Adjustable soft arms come with a cooler on one side and a cup cooler on other. A dual level magazine holder hangs from the side of the seat. The chair also collapses down and stores in an included carry bag for easy transportation.

- Durable 600D polyester Oxford with UV protection.
- Supports up to 300 lbs.
- Featuring high quality mammoth feet with double wall connector design for strength and even load distribution.
- Large mammoth feet prevent sinking into soft surfaces.
- Includes insulated drink holder, cooler box, and attached magazine holder.
- Padded headrest, combination pad, and mesh backer for comfort and breathability with adjustable canvas arms.
- Exterior grade aluminum frame for excellent rust protection.

COMPANION INSTANT HOT WATER PORTABLE SHOWER - ITEM F235896

BaseCamp AquaCube instant hot water or portable shower is the most advanced hot water generator in the world being both digital and cordless.

This 180,00 Btu liquid propane hot water generator raises source water temperature up to 45° F. and is the most advanced in the world today. This great new product is both digital and cordless, allowing you to enjoy a hot shower even in the most remote places. The internal battery will power through 8 five minute showers and the unit can be hooked up to AC or DC power as well with included cables. A 1 lb. disposable cylinder connects directly to the included calibrated regulator to deliver over 60 minutes of hot water on high. The included pump delivers .8 gallons per minute, ensuring that your shower is as good when roughing it as it is at home. Integrated safety features, like the over temp cut off and flow detector, allow you to turn the burner on and off from the shower head and protects you from scalding water. Monitor the water output temperature and the battery level from the water resistant, digital display and transport your unit with the included carry bag.

- 18,000 Btu per hour.
- Flow rate - .66 - 1.18 gallons per minute.
- For use with propane gas.
- Water can be increased by up to 45° F. above source water temperature.
- Built in rechargeable battery powers LCD display and pump for 40 minutes of run time.
- Complete kit includes - shower head and pump assembly, AC and DC adaptors, and carry bag.
- Dual outlets - adjustable on and off shower and tap outlets.

961-2122N

961-2234

961-3422C

Model 961 - For Indoor and Outdoor Installations

Features:

- Easy and safe operation. When the manual valve is in the closed (OFF) position, to make a connection, the user simply pushes back the locking sleeve, inserts the appliance connector plug, and releases the sleeve. No tools are required for a leak tight connection.
- Gas flows when the manual valve handle is turned to the open (ON) position. An interlocking safety cam prevents release of the appliance connector plug until the manual valve handle is in the closed (OFF) position.
- Tested and certified by CSA International to AGA #7-90.
- Capacity – 42,000 Btu/hr. minimum at 0.3" w.c. pressure drop; .64 s.g. natural gas.
- National Fuel Gas Code Reference 5.5.6.
- Temperature protected with built-in thermal protection to prevent gas flow if the gas connection is exposed to temperatures in excess of 200° F.
- To be used with Natural or Propane Gas.

Outdoor Gas Outlet Box

GAS OUTLET - Utilizes standard LP gas outdoor appliance regulator and connector. Both models provide full capacity operation at 10 psi or higher inlet pressures for all outdoor appliances without modification or the hassles of a 20# cylinder. Simply thread the Type 1 QCC or POL connector onto the gas box, turn on the shutoff valve and enjoy continuous gas flow.

- Universal 1 5/16" Male Acme/Female POL outlet connection.
- Universal 1/2" FNPT inlet connection.
- Primary shutoff valve for each outlet connection.
- Secondary safety shutoff poppet at each outlet for zero discharge at disconnect.
- For use with 0-250 psi inlet pressure.
- Universal mounting hardware.
- Hinged cover with latching mechanism.
- Weather resistant high density polyethylene case.
- Single or dual outlet models in Ivory color.
